Phonics - letters Cc/Kk

We enjoyed getting to know all our friends with special student activities. We now know how many letters and syllables are in our names.

F2 - Your child's Sequencing Mind Scribbler has come home today. The visual tool is a Flow Chart. Let your child sequence what is on each page by asking them the two process questions: 1) What happened first? 2) What happened next? *You do not have to return the F2 sequencing duo-tang, it is theirs to keep. Our next F2 cluster is called Character.
