NOVEMBER 10TH NOVEMBER 14TH

CLASSROOM HIGHLIGHTS

Happy Friday Grade 4 Families!

We are looking forward to welcoming Grandparents and Special Friends to PCS on November 14th. The Grade 4's have something very special in store to celebrate your arrival. Thank you for all your generous donations to Operation Christmas Child. What a wonderful way to share the gospel with children around the world.

Important Announcements

With the colder, wet weather upon us, please ensure your child comes to school dressed appropriately for the conditions. Students should have both indoor and outdoor shoes each day, as well as warm clothing suitable for outdoor play.

MATH

In Grade 4, a strong understanding of multiplication facts are essential for success in many areas of math. Knowing these facts accurately and automatically helps students solve problems more efficiently and confidently. It also lays the foundation for future concepts such as division, fractions, and multi-digit multiplication.

Please encourage your child to practice their multiplication facts regularly at home. Short, daily practice sessions — such as using flashcards, online games, or quick quizzes — can make a big difference in building speed and confidence.

Thank you for your continued support in helping your child strengthen these important math skills!
